MUBASHIR T

Full Stack Developer

Laravel, Flutter & Frappe/ERPNext

+91 9061417949 | muba4shir@gmail.com | https://mubashir111.github.io/portfolio/

PROFESSIONAL SUMMARY

Full Stack Developer with 4+ years of experience building web applications, admin dashboards, CRM/HRM systems and e-learning platforms using Laravel, PHP, JavaScript and Flutter. Now extending into the Frappe Framework and ERPNext, building custom apps, DocTypes and workflows to deliver business solutions faster. Strong in API integration, requirements gathering, security and clean, maintainable delivery.

WORK EXPERIENCE

Web Developer | Team Back Office LLP Dec 2025 – Present

- Develop and maintain web applications and business solutions for clients.
- Create custom Frappe apps and install them on bench sites; design DocTypes with fields, child tables, naming and validations.
- Build ERPNext workflows, roles and permissions; customise with Custom Fields, Client and Server Scripts, reports and print formats.
- Integrate APIs and third-party services; test, debug and deploy changes.

Web Developer | Al Rawabi Projects Oct 2024 – Oct 2025

- Built and maintained responsive websites and web applications using HTML, CSS, JavaScript, PHP and Laravel.
- Developed custom features, dashboards and APIs that improved business workflow efficiency.
- Integrated payment gateways, email services and SMS APIs.
- Improved site speed, loading performance and SEO structure.
- Customised WordPress themes and plugins to client requirements.
- Managed hosting, domains, cPanel and server-side deployments.
- Applied security measures, data validation and backup procedures; used Git/GitHub for version control.

Full Stack Developer | GREENWORLD International Business Enterprise Pvt. Ltd. Mar 2022 – Oct 2024

- Designed and developed scalable Laravel applications, including CRM, HRM, dashboards and learning management systems.
- Built and maintained APIs connecting web and mobile applications.
- Developed and deployed cross-platform mobile apps with Flutter.
- Built responsive UIs with Bootstrap, CSS and JavaScript, with dynamic Laravel content and cross-browser compatibility.
- Implemented real-time tracking and analytics to monitor engagement and improve course recommendations in Ed-Tech products.
- Created dashboards for business insights, lead tracking and student application monitoring.
- Troubleshot and resolved technical issues to keep business and education applications running smoothly.

Full Stack Developer | XpertConsortium Nov 2021 – Feb 2022

- Developed and maintained web applications using HTML, CSS, JavaScript, PHP, React.js and Laravel.
- Integrated and optimised APIs for reliable data exchange.
- Tested and debugged code; maintained technical documentation.
- Managed data in MySQL.

PROJECTS

Admission Tracker (Web and Mobile App) | https://admissiontracker.in/
Built web and mobile apps for tracking student activity and progress.

Target Learning Web App | https://elearn.targetlearningapp.com/login.php
Handled API integration, web app design and payment gateway setup. Implemented subscription plans, lesson chapters and a Vimeo player; tested APIs with Postman.

Wise Learning Web App
Designed the web app and integrated APIs; implemented subscription plans, lesson chapters and user login panel.

Wise Manager Dashboard
Built a PHP/MySQL dashboard with role-based access (owners, branch managers, sales executives), task assignment, CSV/PDF exports and DataTables.

Lifescool Website | https://www.lifescool.app/
Developed a responsive, dynamic educational platform for students and educators.

Wytfox Website | https://wytfox.in/
Built a clean, fast, easy-to-navigate corporate website.

EDUCATION

Bachelor of Computer Science 2017 – 2020
KR's Sree Narayana College, Calicut University

MCSE and CCNA Training 2020 – 2021
Soften Technologies, Cochin, Kerala
